

Becoming a Member of the CIEL Network

CIEL is the livestock industry's front door to a collaborative network of expertise and innovation – stimulating the development of new products, technologies and processes for livestock food production.

Membership opportunities

- Speed up the translation of ideas into innovative supply chain solutions
- Identify new ways to solve complex challenges
- Inform and influence industry priorities
- Position your business at the heart of agricultural innovation

CIEL at a glance

NATIONWIDE NETWORK

ACADEMIC PARTNERS

World-leading livestock research expertise

>800

RESEARCHERS

Collaborative network tackling the grand challenges facing the livestock industry

>70

INDUSTRY MEMBERS

Covering all aspects of the livestock supply chain from pre-farmgate, processors and retailers to animal health and SME innovators

MULTI-DEPARTMENTAL GOVERNMENT PARTNERS

Working across UK Government including BEIS, UKRI, Innovate UK, Defra, DHSC, DIT and devolved administrations

Membership benefits

Knowledge network

Connect with new knowledge, insight and technical expertise. Forge relationships with new contacts to extend your business & innovation network and accelerate your own research & development.

World-leading research capability

Access world-leading research capability at a commercially relevant scale. Rigorously test & validate new technologies with increased confidence and credibility, knowing the results will be replicable at farm-level.

Business collaboration

Collaborate with other innovative businesses. Stimulate the generation of new ideas & business opportunities and develop networks you need to help tackle critical sector challenges.

Accelerated business growth

Raise your profile with exposure to potential customers, collaborators and investors. Maximise your chance of success to secure funding with enhanced research proposals that make a compelling case for funding.

Increased profile

Be seen and be heard. Present and champion new ideas to an extensive industry network and help ensure important industry issues are addressed at the highest level.

£70M

INVESTMENT

Greatest joint investment in livestock research capability in a generation

26

FACILITIES

Capital investment in new or enhanced research facilities nationwide, spanning all livestock species

>30,000

LIVESTOCK

Multiple research populations – adult, youngstock, breeders, sucklers, grower/finishers, layers/broilers

£££Ms

PROJECTS

Projects managed and in the pipeline

« Our commitment to technical research keeps us at the forefront of the science of dairy nutrition, so we can continue to deliver exceptional products with unique benefits for our partners, customers and end-users. Working with CIEL and it's wider network is an important element of this.

Volac

« CIEL is an important facilitator in bringing industry together to discuss key issues the sector needs to address and identify ways to overcome them.

Germinal GB

Membership includes:

- Priority access to world class research capability across the network of scientific research institutions within the CIEL Network, focused on farms and supply chains for livestock products
- Facilitated introductions to new research expertise and key industry contacts
- Member exclusive events supporting networking, knowledge exchange and offering new insight on emerging risks and innovative technologies that can address these and other challenges in your business
- Opportunities to showcase your business on a national and international stage
- Frequent exclusive Member communications highlighting the latest research, industry news and relevant funding opportunities
- Preferential access to tailored support for funding applications, expertise in project management and help with commercialisation & routes to market.
